To Whom it May Concern,

I am writing to recommend Maialen Ezkerra Galardi. She worked as a babysitter for us for 2 years and was the best babysitter we have ever had watch our children. When she started my children were 23 months old and 1 month old. The almost 2 year old child did not like staying with anyone other than me, his mother, she quickly changed that within two visits he was happily staying with Maialen alone. This says a lot if he did not even like staying with his grandparents alone. I believe it was because she is so engaging in a very caring way with the children. Their needs were always first. She kept their time together interesting taking them on little trips to different playgrounds around the city.

When she babysat, she was able to balance responsibility and play flawlessly. The boys loved having her over and I always felt safe leaving her with my babies. We also loved that she was very flexible and accommodating to meet our family's needs.

She left us when she got full time work at a kindergarten. We were all sad to lose her as a babysitter but knew how lucky the kids at the kindergarten were for getting to have her as a caretaker every day.

She has left a lasting impression on my children who still sometimes 3 years later still talk about her. I would highly recommend her for this position.

Should you have any questions about Maialen, I would be happy to answer them please reach me at abbiecasper@gmail.com or +49 15161481448

Sincerely,

Abbie Casper
